BT8330

SYSTEM X™ UNIVERSAL MENU BOARD MOUNTING SYSTEM

WALL OR POLE MOUNTED

The BT8330 is a modular mounting system designed for menu board installations of any length. As part of the new System X Range, the BT8330 can be used in thousands of different configurations and must be ordered according to your requirements. This process is made easy using B-Tech's online configuration tool - simply visit **www.btechavmounts.com/systemx-configurator** and enter a few details (such as number of screens and their size) and the configurator will select all of the components needed and create a single part code with which to place your order.

SPECIFICATION

Recommended screen size	32" - 65"
Max load	50kg (per screen)
VESA® & non-VESA fixings	200 x 200 up to 800 x 400*
Tilting option	+20°
Colour (VESA arms)	Black
Colour (horizontal rail)	Silver

*Please note screens with VESA patterns larger than 400 x 400 need to use additional adaptors **(BT7564)** when used in portrait mode, these are available separately.*

FEATURES

- Universal design suitable for all sized screens up to 50kg (per screen)
- High-end aesthetic quality
- Can be used in a variety of configurations
- Wall or ceiling mounted options available
- Suitable for landscape or portrait screen mounting
- Multiple rail lengths available (rails can also be joined)
- Available with a choice of fixed, tilting or micro-adjustment arms
- All arms feature levelling screws to adjust the screen height
- Tilt arms feature up to +20° tilt
- Micro-adjustment arms allow screen depth to be adjusted at each corner
- Safety screws help prevent unauthorised removal of screens

CREATE YOUR MOUNTING SYSTEM ONLINE

SPECIFY YOUR REQUIREMENTS ONLINE AND OUR CONFIGURATION TOOL WILL CREATE A BT8330 KIT TO SUIT YOUR EXACT NEEDS

Menu board installations can vary dramatically from one install to the next, so the BT8330 has been designed on a modular principle with over 2000 different configurations available! Any BT8330 solution ordered will be configured to your exact requirements and then created from our catalogue of System X components which are all held in stock. Visit our online configuration tool to specify your requirement where you can choose from different options such as screen size, orientation and pole length (for ceiling mounted installs).

TECHNICAL DRAWINGS
BT8330 mounting kits are created to your exact requirements from our extensive range of System X components, which are all held in stock. The technical drawings here show the core components of the kit - the various Interface Arms, Wall Fixing Plates and Mounting Rails that are available. These rails can be also joined together using **BT8390-EXT** Extension Kit to create greater lengths.
Ceiling mounted BT8330 kits are supplied with all necessary ceiling mounts, poles (choice of pole lengths are available) and collars, so do not need to be ordered separately.

Please visit our System X online configuration tool at **www.btechavmounts.com/systemx-configurator** to specify your requirements. All dimensions will be automatically calculated and a complete mounting solution with all required parts will be created for you.

VESA 200 INTERFACE ARMS AVAILABLE
