COMPACT LOUDSPEAKER

The Elipson XLS 11  
loudspeaker completes  
the heritage range,  
inspired by the monitoring  
loudspeakers of the 1970s.

This new loudspeaker takes up a resolutely vintage aesthetic code under an even more compact, more discreet and equally elegant format beyond its aesthetic, it is still its musicality that comes first.

This compact 3-way loudspeaker tuned in bass reflex design with front-firing flared port benefits from a new 8" diameter cellulose woofer derived from the 12" woofer of XLS 15. The other drive units are identical, namely , a new 2.2" treated dome midrange covering nearly three octaves and finally a 0,87" silk dome tweeter declined from the famous tweeter from our flagship model of the Prestige Facet series.

A fine amplitude of 2dB allows you to adjust the mid and high frequencies levels according to your listening room or auditory affinity. In addition, an optional 5° tilted metal stand (Elipson Heritage XLS Stand 1) can be inserted for perfect acoustic phasing and which raises this loudspeaker by 22 cm in addition to this inclination.

Velocity and control of the bass, definition and relief of the midrange, delicacy and extension of the high frequencies characterize the sonic pleasure of this Elipson Heritage XLS11 loudspeaker.
